

# Screenshots

## Landing Page

The screenshot shows the landing page of SmartDocs AI. At the top, there's a navigation bar with the logo "SmartDocs AI", "FEATURES", "ABOUT", "CONTACT", and a "SIGN IN" button. Below the navigation is a sub-header "ENTERPRISE RAG INTELLIGENCE". The main title "Your Data. Perfectly Cited." is prominently displayed in large, bold, white and blue letters. A subtitle below it reads: "The ultimate document intelligence platform. Ingest technical manuals, legal papers, or research PDFs and chat with an AI that never hallucinates." At the bottom of the main section are two buttons: "GET STARTED FOR FREE" and "EXPLORE FEATURES".

## Features

The screenshot shows the "Powerful Features" section of the website. The title "Powerful Features" is at the top in large, bold, white and blue letters. Below it is a sub-header: "Everything you need to transform documents into intelligent, searchable knowledge bases". The features are presented in a grid of six cards:

- AI-Powered Search**: Neural semantic search finds exactly what you need, even with natural language queries.
- PDF Intelligence**: Advanced PDF parsing with text extraction, table detection, and image analysis.
- Source Citations**: Every answer includes precise citations with page numbers and highlighted excerpts.
- Multi-User Sessions**: Collaborate with your team with isolated user sessions.
- Analytics Dashboard**: Track usage patterns, popular queries, and more.
- Enterprise Security**: Your data stays private with local vector storage.

## About

The screenshot shows the "About" section of the website. The title "About SmartDocs AI" is at the top in large, bold, white and blue letters. Below it is a sub-header: "SmartDocs AI was built to solve the problem of information overload in document-heavy industries. Our advanced RAG (Retrieval-Augmented Generation) technology ensures that every answer is grounded in your actual documents, with precise citations." There are three small stats at the bottom left: "10K+ Documents Processed", "500+ Active Users", and "99.9% Uptime". To the right is a large, stylized graphic of a network of interconnected nodes and lines, representing the AI's internal structure or the connections it creates.

## Chat Interface

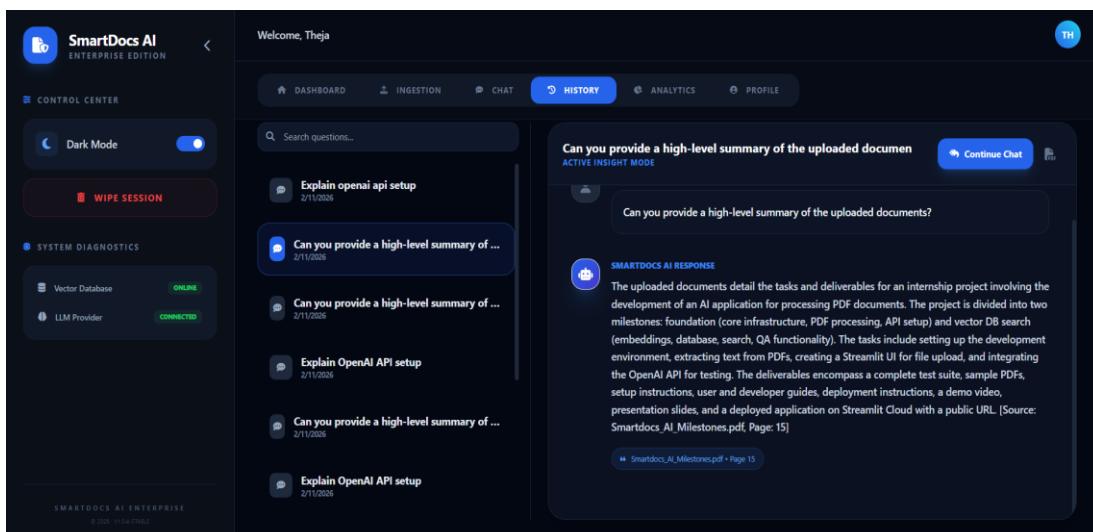

The screenshot shows the SmartDocs AI Chat interface. On the left is a sidebar with the title "SmartDocs AI ENTERPRISE EDITION". It includes a "CONTROL CENTER" section with a "Dark Mode" toggle, a "WIPE SESSION" button, and a "SYSTEM DIAGNOSTICS" section showing "Vector Database" as "ONLINE" and "LLM Provider" as "CONNECTED". Below this is the footer "SMARTDOCS AI ENTERPRISE V2.0.0-V1.0.0-0746A". The main area has a dark header with tabs: DASHBOARD, INGESTION, CHAT (highlighted in blue), HISTORY, ANALYTICS, PROFILE, and buttons for "MANUAL SAVE REQUIRED" and "Save Session". A "Welcome, Theja" message is at the top. In the center, there's a text input field "Ask a question..." and a send button. A callout box titled "Explain openai api setup" contains text about setting up the OpenAI API. At the bottom right is a file preview for "SMARTDOCS AI MILESTONES.PDF" with "PAGE 3".

This screenshot is similar to the first one but includes a "SOURCE VERIFICATION" panel on the right. The panel shows a preview of the PDF file "Smartdocs\_AI\_Milestones.pdf" with "PAGE 3" visible. It contains sections for "Documentation of what each cleaning function does", "Task 4: Basic Streamlit UI - File Upload", "Type: Frontend Development", and "Detailed Description: Build the initial Streamlit interface in frontend/app.py with a professional sidebar with a file uploader component (st.file\_uploader) that accepts type validation. Display application title, description, and instructions (st.markdown). Show uploaded file details (name, size in MB) in an ordered 'Process Documents' button that triggers file processing. Implement validation (.pdf), file sizes (limit to 10MB per file), and display appropriate success/error messages using st.error(). Add a file counter showing 'X files up...'. The panel also includes a search bar and a zoom level indicator.

## History

The screenshot shows the "HISTORY" tab selected in the header. The main area displays a list of previous interactions. Each interaction is shown in a card with a user icon, timestamp, and message text. The messages are from the user asking for document summaries and API explanations. To the right of the list, a large callout box shows a detailed response from the AI system. The response discusses the project's tasks and deliverables, mentioning AI application development, PDF processing, API setup, and vector DB search. It also refers to the "Smartdocs\_AI\_Milestones.pdf" document and its page 15.

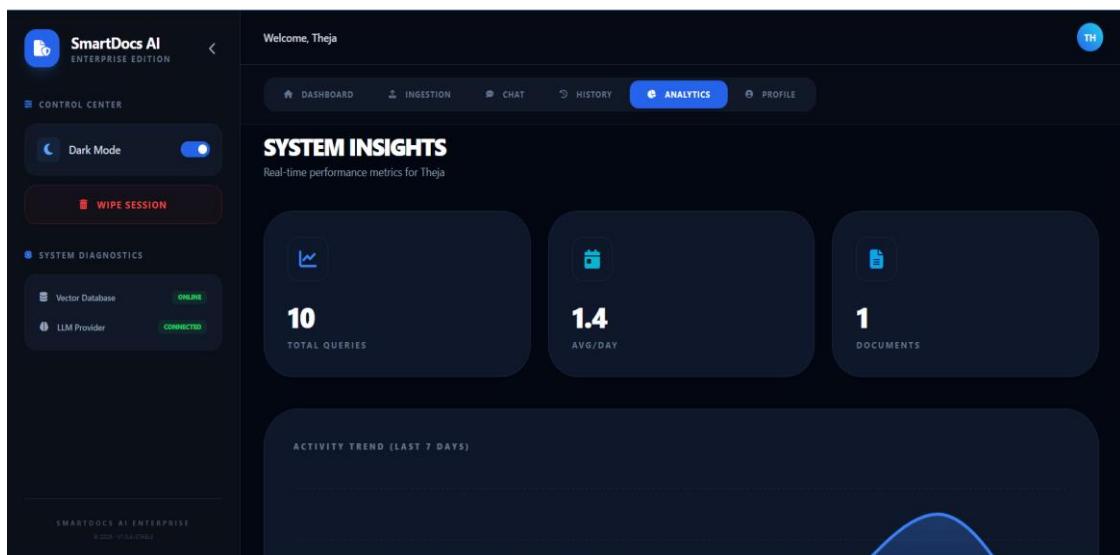

## SmartDocs AI — Chat Session

Session ID: sess\_20260211\_061446

Created: 2/11/2026, 12:44:46 AM

Role	Content
USER	Can you provide a high-level summary of the uploaded documents?
AI	The uploaded documents detail the tasks and deliverables for an internship project involving the development of an AI application for processing PDF documents. The project is divided into two milestones: foundation (core infrastructure, PDF processing, API setup) and vector DB search (embeddings, database, search, QA functionality). The tasks include setting up the development environment, extracting text from PDFs, creating a Streamlit UI for file upload, and integrating the OpenAI API for testing. The deliverables encompass a complete test suite, sample PDFs, setup instructions, user and developer guides, deployment instructions, a demo video, presentation slides, and a deployed application on Streamlit Cloud with a public URL.
